

ANNOUNCEMENT

Europe Strategic Sourcing & Logistics

I am pleased to announce the following changes to the Strategic Sourcing & Logistics Organization.

Jos Hermans has assumed the position of Director of Logistics – Europe reporting directly to me. In this position, Jos will have responsibility for leading our strategic logistics initiatives for all Power Transmission Solutions sites in Europe and will work closely with the Emerson logistics teams.

Jos started with Emerson at our Rollway Bearing facility in Kontich, Belgium in June 2000 and has held various leadership positions in this organization during his tenure. Most recently Jos was Director of Logistics – RBNV and will remain in the Kontich area.

Pavol Nyiri has been promoted to Strategic Sourcing Specialist, reporting to me, and will be responsible for the implementation of our sourcing strategies and supplier identification for our growing presence in Europe. Pavol will primarily focus on steel and steel components in support of all of our European sites.

Pavol joined Emerson in December 2008 as a Buyer for our Kop-Flex Coupling business in Nove Mesto, Slovakia. Pavol will continue to reside in the Nove Mesto area.

Please join me in congratulating Jos and Pavol on their new and challenging positions.

Chad Hartley
Director – Worldwide Strategic
Sourcing & Logistics
