

ANNOUNCEMENT

Florence Quality Engineer

I am pleased to announce the addition of Crystal Brown, Quality Engineer to the Florence Operations Team.

Crystal is from Walton, Kentucky, and has a Bachelor's Degree in Manufacturing Engineering Technology from Northern Kentucky University. She has several years of experience in quality and engineering. We feel Crystal will quickly become an asset to our facility.

Crystal will report to Carl Richardson and will also support Carri Riedel in our North American quality initiatives. Crystal will play a key role in the implementation of quality processes for both Solus manufacturing and Distribution operations in Florence.

Please join me in welcoming Crystal to Power Transmission Solutions.
